For the last 49 years, this has been proved to be effective and successful, accepted and appreciated by the parents and community.

### OUR PHILOSOPHY: "EDUCATING HEART AND MIND"

In 1837 Fr. Basil Moreau, the Founder of the Congregation of Sainte Croix, (Holy Cross), envisioned education as the main source of empowering the young for a better and brighter world and to uplift the broken society of France. He prepared men and women religious, who will see the world as he saw it, developed and empowered. To this end, he founded a congregation of priests to do pastoral and educational ministry, which was known as the Congregation of Holy Cross.

Fr. Moreau believed that educating the mind without educating the heart is no education at all. He instructed the members of his Congregation to follow this principle in all their educational institutions. He said, "We shall always place education side by side with instruction; the mind will not be cultivated at the expense of the heart."

This Philosophy is the core of all the educational institutions run by the Congregation of Holy Cross. Even as we impart education to match the advancement progress of the present time, we inculcate in our children ethos of moral values and principles. We endeavour constantly to instil these qualities in our children. We pride ourselves in helping them to grow and develop into sensitive and responsible citizens of the future.
